

Vote **yes** to the Uni city move.

An open letter to the people of Hobart.

Change is never easy!

Just like the move of the University from the city to Sandy Bay 70 years ago was controversial, so too is the Uni's consolidation back into the city.

We do understand that the move will mean change in Sandy Bay, and we strongly support the University undertaking further consultation.

But we also firmly believe that this move is in the best interests of students both now and in the long-term, and it is in the best interests of the city of Hobart.

We owe it to our young people and to future generations of Tasmanian students to ensure that they have access to a world-class university so they can access the best possible education.

It is time to stop saying "no" to change in Tasmania.

Please vote Yes in the Hobart City Council elector poll.

Signed,

Luke Martin
