OR

Application for waiver (Please mark "X")

Member of Parliament		Impecunious applicant		General public interest or public interest	X	Journalist	
----------------------	--	-----------------------	--	--	---	------------	--

*Please note if you are seeking a waiver of the fee on the grounds of general public interest you will need to explain how the information you are seeking will be used for a public purpose:

There is a high level of public interest in the proposed move of UTAS' southern campus into the Hobart CBD and the redevelopment of the Sandy Bay campus. I am preparing to write an article (or series of articles) on how the proposal developed over time.

Personal information:

Is Application for release of personal information (Please mark "X")	Yes		No	X
--	-----	--	----	---

If yes, you must provide proof of identity before we can release the information – if lodging by email or mail you will need to provide certified copies.

Details of the information sought: (If there is insufficient room in the space provided please attach further details.)

I request records of consultation, with the community and UTAS staff and students, in the period 1 July 2018 to 5 April 2019, relating to UTAS' decision (announced on 5 April 2019) to develop a city-centric campus in CBD. My request includes, but is not limited to:

- Records of any focus groups with the community and UTAS staff and students on options for the location of the southern campus;
- Records of any polling of the community and UTAS staff and students on options for the location of the southern campus;
- Copies of any consultants' reports, including final reports and draft and interim reports, on consultation on the location of the southern campus;

Copies of comments (held on file) by UTAS staff on focus groups, polling, and consultants' reports, including comments on draft or interim consultants' reports; and

- Copies of task specifications for consultants contracted to undertake consultation on the location of the southern campus.

I note that all relevant material should be held on a small number of files, or file runs, and that it should be relatively straightforward to copy that material. At this stage, I am not requesting copies of relevant emails held on the UTAS system, which may otherwise have been relevant to the subject of my request, unless they have been copied onto file.
